Hello Cleveland!

I am so excited to come to Cleveland next year!

Until I will get to know everyone properly, I want to tell you a little bit about myself.

My name is Shahak Musai, and I live in a small town called "Kadima" with my Mother, my two brothers and my dog. My father passed away when I was 15 after a year of cancer.

My older brother, Ofek, is 20 years old and he is an officer in the army, and my second brother, Yahav, is 13 years old and his favorite things are gaming but mainly soccer.

My mother's name is Yael, and she works as a tax advisor. People always say that we look alike, but I never saw the similarity between us – probably because she has a crazy curly hair, and mine is straight.

I used to dance for a long time, and now my biggest hobby is photography. I learned cinema as a major in school and I like it a lot! I love to see movies and also to

create some by myself, to write, film, edit...

Another thing I like to do is going to the scouts in my town. I met so many new friends in the scouts and I believe that this is the place I'm going to miss the most when I will be in Cleveland. This year I am responsible for 8 counselors, and we go together to an elementary school of kids with autism and make different activities with them. I also was a counselor of kids in 8th grade one year ago, and year before that I was a counselor of girls in 4th grade.

I can't wait to come to Cleveland next year and meet everyone. I'm sure we will have an amazing year together!

**See you soon,
Shahak**
